GLAZING

Laminated glass must be used for skylights installed 3m or more above floor level. (AS1288)

Performance Laminated Glazing (Standard)

Laminate glass resists impact protection.

PVB interlayer eliminates 99% of UV.

Comfort Double Glazing (Optional)

Argon filled cavity increases energy efficiency.

Low-E coating maximises light transmittance & reduces solar heat gain.

Laminated inner glass resists impact protection. PVB interlayer eliminates 99% of UV.
