## Sunpipe Blaze™

Sunpipe Blaze has been specifically designed for Australian Bushfire areas. In place of the standard Sunpipe Acrylic Dome is Laminated Safety Glass to give a non-combustible lining to the roof to repel burning bushfire embers. Shown here with Ember Guard installed.

The Skyspan Sunpipe is manufactured to comply with the Australia Standard AS4285 and is covered by a **seven (7) year guarantee**.

### TYPICAL INSTALLATION

Roof Pitch Range: 0°-45°

### MANUFACTURE

#### Flashing and Frame

##### STANDARD MATERIALS

0.75mm Zincalume® steel spot welded for superior strength.

##### STANDARD FINISH

Mill

##### CUSTOM FINISH

Powder coated to match **Colorbond**® colour range.

#### Glass

##### STANDARD COLOUR

### RATINGS

	U-Value	0.98	SHGC	0.85
	SHGC	0.85	VLT	98%

	Complies with Bushfire AS 3959-2009
--	-------------------------------------

\* Rating based on installations above 18°. Refer to Ember Guard.

### EMBER GUARD

An extra level of protection on roofs pitched below 18° and to meet BAL-29 requirements. The Skyspan Bushfire Ember Guard is manufactured from black stainless steel flyscreen mesh.

#### Shaft

#### Flexible Shaft

#### Collar

#### Diffuser

#### Ceiling Trim

### DIFFUSER TYPES

#### Concave Diffuser

Available in both Prisma™ & WarmGlo™

#### Flat Diffuser

Available in both Prisma™ & WarmGlo™

##### Prisma™

The standard diffuser is a Clear Prismatic Diffuser that eliminates glare and produces an even spread of light by the female conical prism refracting properties.

##### WarmGlo™

The option diffuser is available in both flat and convex shape. The WarmGlo Diffuser is a frosted white translucent diffuser that eliminates glare and produces a bright light that is softened for visual comfort.
